ACTA TROPICA, an international journal of biomedical sciences, gives attention to every aspect of this field relevant to human health, including veterinary medicine and biology in the tropics. The subjects dealt with range from medicine and community health to epidemiology and the biology of parasites and vectors as well as to toxinology. The journal is open to contributions concerning either basic or applied research in disciplines such as taxonomy, morphology, biochemistry, physiology and immunology. Contributions may be in the form of original papers, review articles, or short communications.
