## **Foreword**

The UNDP/WORLD BANK/WHO Special Programme for Research and Training in Tropical Diseases (TDR) is a goal-oriented research and training programme with two interdependent objectives:

- research and development to obtain new and to improve existing tools for the control of major tropical diseases;
- strengthening of the research capability of tropical countries.

The research is conducted on a global basis by multidisciplinary Scientific Working Groups. The training and institution-strengthening activities are limited to the tropical countries where the diseases of concern are endemic.

Six groups of diseases have initially been selected for attack: malaria, schistosomiasis, the filariases (including onchocerciasis), the trypanosomiases (both African sleeping sickness and the American form, Chagas' disease), the leishmaniases and leprosy. Scientific Working Groups are also active in "trans-disease" areas: biological control of vectors, epidemiology, and social and economic research.

The present supplement contains the proceedings of a meeting of the TDR Scientific Working Group on schistosomiasis on «Prospects for immunological intervention in human schistosomiasis» held in Geneva in May 1986.

Scientists interested in participating in TDR are invited to write for further information to: Communications Officer, Special Programme for Research and Training in Tropical Diseases (TDR), World Health Organization, 1211 Geneva 27, Switzerland.

Tore Godal, Director

Special Programme for Research and  
Training in Tropical Diseases (TDR)

## **List of Participants**

**BECK, Dr E.**, Centre of Molecular Biology, University of Heidelberg, Im Neuenheimer Feld 282, 6900 Heidelberg, Federal Republic of Germany

**BUTTERWORTH, Dr A. E.**, Department of Pathology, University of Cambridge, Tennis Court Road, Cambridge CB2 1QP, United Kingdom

**CAPRON, Professor A.**, Centre d'Immunologie et de Biologie Parasitaire, Institut Pasteur, 1, rue du Professeur A. Calmette, 59019 Lille Cedex, France

**CAPRON, Dr M.**, Centre d'Immunologie et de Biologie Parasitaire, Institut Pasteur, 1, rue du Professeur A. Calmette , 59019 Lille Cedex, France
