Total expenditure, at CHF 31.5 million, is CHF 0.3 million below budget; the budgeted total income was achieved. It was also possible to maintain the forecast level of self-funding. As can be expected of a library, the self-funding level is low. This is due on the one hand to the nature of the work – collecting and archiving generates no income – and, on the other hand, to the fact that the basic services and facilities, for which a fee could potentially be charged, are provided free of charge by law. In addition, the most important services provided by third parties are provided in kind rather than cash and therefore do not appear in the budget: it is thanks to an agreement with the Swiss publishers' associations that the NL receives by far the largest proportion of Swiss books and periodicals free of charge. The growth of tangible expenses by CHF 10 million compared with the previous year is explained by the introduction of internal accounting for services within the Federal Administration.
