# WHO OWNS THE WATER

**THE WONDER CALLED WATER.** Without water, there is no life. Water defines the face of our planet and preserves the fragile balance between overheating and undercooling.

**WATER AND PEOPLE.** Industrialization and population growth have brought about a global water crisis. Nature can no longer compensate the exploitation of our freshwater and our oceans. One billion people have no reliable access to clean drinking water; two billion live in precarious hygienic conditions. Famine, poverty, epidemics, and infant mortality are closely linked with the water crisis.

**WATER AND POWER.** Social, ecological, political, and economic conflicts obstruct efforts to resolve the global water crisis. Water is an instrument of power. The key question reads: Is water a commodity or is free access to water an inalienable human right? In other words: WHO OWNS THE WATER?
