Im April, im April da macht dä
EDItor was er will...

Hi there to the
April issue of the
renown Auckland
Swiss Club New
Latter.

Right at the beginning I,
the EDItor of this News Let-
ter would like to tell you
folks that there will be no
April-Fool joke this time. Some of the
previous years fools have still not forgot-
ten their foolishness and might fall for a
April-Fool joke once more. Never mind
may be next year.

Did you know the proper English way
of spelling? How about the word "ghoti"?

It's an easy one... think of 'enough'
'women' & 'nation'... get it!

Like some "Ghoti & Chips"!

It's a difficult language, isn't it?

**The Obli. & Feldschiessen on 6/7
March.**

Despite poor weather in Auckland
and a couple of showers at the Farm, the
9 shooters found excellent condition to
finish the shooting programme.

The Sunday tum out was even better.
The Shooting finished about at 3pm fol-
lowed by a good social time with families,
visitors and shooters at the 6 Star Chalet.
Thanks to all helpers and shooters for an
other successful and enjoyable club day
up at the little Swiss Farm.

Roy Spillman, Riflemaster

Through the grapevine we have heard
that a few young members have found a
small Marijuana plantation at the Swiss
Farm on the Shooting day weekend.
Having recognised the dope plants they
quickly passed on the news to their par-
ents who then went and destroyed the
few plants.

**Well done kids for helping to keep
our Farm clean of such rubbish.**

MARIJUANA

Marijuana comes from the plant called
cannabis sativa, which grows in many
parts of the world, including New Zea-

land. A marijuana
joint or cigarette is
made from the dried
parts of the plant (ex-
cept from the main
stem and roots).

The word "high" is
often used to describe
the feelings caused
by marijuana. After
smoking marijuana, some people be-
come giddy and laugh about things they
would not usually find funny. Others talk
a lot or become very quiet. Thinking
takes longer and time seems to slow
down. Marijuana users may sometimes
experience acute panic reactions to the
drug which include paranoia, abnormal
fears and anxiety. First time reactions to
marijuana may differ depending on the
strength and the amount of marijuana.
The "high" from marijuana is caused by a
chemical called delta-9-
tetrahydrocannabinol, or THC for short.
THC is a psychoactive or mind-altering
drug. The more THC in marijuana, the
stronger the high will be and the longer it
will last - and the harmful effects may be
increased. Special tests can find marijua-
na's ingredients in the body up to a month
after use. A full month or more of not
smoking is necessary in order to com-
pletely rid the body of marijuana.

HASHISH

Hashish also comes from the canna-
bis sativa plant. It is a dark green or brown
gum-like substance which comes from
the plant's flowers. Like marijuana, the
strength of hashish is determined by the
amount of THC it contains. Hashish is
sometimes stronger than marijuana. It
may be sold in block, powder or oil.

EFFECTS

Learning - Marijuana makes learning
more difficult. Concentration is harder,
and thinking slows down. Studies show
that marijuana actually interferes with think-
ing and memory. Reading, speaking and
doing arithmetic are especially difficult.

Hormones - When males smoke
marijuana the amount of testosterone, a
sex hormone in boys and men, is often
lowered. Marijuana also reduces the
number of sperm produced in the body.
Sex hormones in females are also af-
fected by marijuana. This can affect the
menstrual cycle. Furthermore babies born
to marijuana smoking mothers run a
higher than normal risk of birth defects.

Brain damage - Brain damage is a
real possibility. When marijuana is
smoked, THC reaches and affects the
brain. Scientists are now trying to learn

whether these effects produce long-term
physical damage to the brain.

Heart - Marijuana makes the heart to
beat up to 50 percent faster than the
normal heartbeat. It can also cause chest
pains and very low blood pressure in
people with heart problems.

Lungs - Inhaling any kind of smoke
over a long period of time is harmful. This
is particularly true of marijuana because
it usually inhaled deeply into the lungs
and held there for as long as possible.
Scientists believe that, like tobacco, mari-
juana will be shown to cause some dis-
eases of the lungs, including cancer.

Cancer - Marijuana smoke has more
cancer-causing ingredients than tobacco
smoke. When the tars from marijuana
smoke are put on the skin of animals,
tumours grow. Laboratory experiments
with human lungs show that abnormal
cells develop. As with tobacco smoking,
the more a person smokes, the greater
the chance of developing lung diseases.

safety Handbook.*

Society Shooting - We might be on
a winning track with the shooting compe-
tition. On Sunday, 13 March a gathering
of more than 40 people came up with 26
keen shooters. Amongst them was our
new talent, **Isabelle Pfenniger** being just
14 years of age. Some of the scores were
stunning and the way it looks we have
now a fair chance of passing on these
results to the semi-finals of the Cow Bell
Competition and beat the Hamiltonians
for once. Well done folks and again a big
thank to **Martha & Ernst Glaus** for letting
us use the facility on their property.

CHILDREN'S DANCE GROUP

The Children's Dance Group
would like to welcome new
members from the age of 5, to
our group. We have a shortage
of boys and they are especially
welcome.

We meet usually fortnightly on
Saturday afternoon at 4pm in
Massey for a one hour's practice.

If you would like to know more
about it, please contact
Julia Moors on **832 3518**

or

Yvonne Buhler on **832 3334**
in the evening.

We look forward to meeting you
as a new member.

COW-BELL COMPETITION

On Sunday, 25 April, starting at 10am at the Swisscraft Ltd., Herbert Stäheli, 33-39 Colombo Street, Frankton-Hamilton (ph. 078 477-220). Once more we have to beat the Hamiltonians in Kegeln, Steinstossen & Jassen to qualify for the finals which will then be held at the Swiss Society's AGM on Queens Birthday weekend, again in Hamilton. The number of entries are not limited but only the best results will count. The more of you turn up the bigger the chance to win but please let us know so we can tell the Hamiltonians how many drinks to put in the fridge.

For any information or possible car pooling arrangements phone Presi Chris on 838-9894

AGM

The Annual General Meeting of the Auckland Swiss Club will be held on Friday, 14 May at the Gasthof "Prost Ethnic", 224 Hobson Street, City starting at 7.30pm. Any notices of motion have to be received by the secretary in writing no later than 30 April. The meeting will end with a good time and a delicious snack.

Förster (Andre Eckert) has put forward the idea of adding \$2-5 to the subs just in order to pay a contractor to get rid of the gorse up at the Swiss Farm so we can spend the Working Bee time more constructive on the hut, the bunks, the range etc. This will surely speed up the planned improvements on the property. Think about it!

NEW COMMITTEE MEMBERS

One or two committee members are leaving. How do you feel about joining the dynamic team? We are looking for a new secretary and one or two committee members. Please, give Presi Chris a phone on 838-9894 if you are interested in the clubs future as an organising member.

Also we are looking for one or more members who can create reports, event announcements and stories for the renowned Auckland Swiss Club News Letter part of the Helvetia on a regular (monthly) basis. For more info you can phone the 'NL' Editor on 444-3020 if you would like to help this way.

THE NEW LOGO

We have just received the 1st draught of the new combined Club Logo. A piece of each of the previous three Logo, a bit of redesigning and here we are. It looks that very soon we will have an excellent and professional looking blueprint for many possible uses and applications. Please, don't hesitate and give us your honest comments.

JODELCONCERT

Feb 5th-7th. The Taranaki Swiss Club hosted the Yodelgroup "Bärgglöggli" together with the "Wiggerthaler" Brassband. By 8 o'clock on Friday evening the beautifully decorated Kaponga Town Hall was occupied to the last seat. For more than two hours we were treated to a variety of items from Yodels to Marching-music, from Alphorn-tunes to Fahnenschwingen displays. Everybody enjoyed this concert very much, Swiss and Kiwis alike. With a lavish supper everybody could fortify themselves, be it for the way home or be it for dancing till the early hours of the morning.

The following afternoon the group went sightseeing in our lovely district. Later that evening we all met again at the Clubhouse for a scrumptious Pot-luck-tea. Our guests thanked us again with a few items and then we started dancing to the "Lüpfige Blächmusig" until it was time to go home.

The people from Taranaki had a most enjoyable time with our guests and we sincerely hope they feel the same.

Feb 14th. Picnic.

A cloudy sky and cold temperatures made a mockery of the words "Summer" and "Picnic". But despite the wintry conditions, quite a lot of members and friends turned up at Clubgrounds. While the beer-tent and the ice-cream parlour reported low trading, the sausage sizzle and the coffee-corner were very busy.

The big attraction in the afternoon was again the Schwingen, which was won by one of our visitors from Switzerland. The Schwingen for children proved very popular. One of the competitors was overheard saying (*while he was "hard at work"*): 'Dad, he is trying to defend himself!'

It was nice to see so many members turning up for the day and we hope the weather next year will be better.

2nd. March. AGM. We have a patron, again! Congratulations to Don Luend Sen. for becoming our new Patron.

There were no changes in our committee, everybody was re-elected unopposed (big relief)?!

7th March. Awatuna Centennial. A lot of work lay behind Lea's and Guido's "Chäserei" on the float. Guido looked the part of a real Chäser even when the finished product looked a bit "woody". With the Swiss flags in front and quite a big 128contingent of Swiss in their costumes, complete with cowbells, Alphorn and a "Sennenhund" pulling a milk-cart, the Swiss Club cut quite a picture and was well applauded. **V.K.**

PICNIC WRITE-UP

This year the weather was just perfect with the sun shining and no trace of wind. Members and friends of all ages turned up to what turned out to be a fun-filled day. The BBQ sausages proved as popular as ever and this year a variety of Swiss Home Baking was available and thoroughly enjoyed.

It was great to see so many members participating in the medal shooting, shotput and Kegeln. The Kegeln Cup was won by **Mr. Wally Unternährer** with 25 points and **Yollander Villiger** won the ladies teapot with 24 points.

Roland Rufer entertained the children with fun and games which included a large earth ball, tug of war, cricket, lollie scramble and many more games. The adults were also entertained by **Mr. Joe Egger** and his Fahnen Schwingen.

Many thanks to all those who helped make the day such a success. **E.C.**

ZIBELEMÄRIT VERY POPULAR

Last November, over 683 stands, spread from the Bahnhofplatz to the Münsterplatz, offered over 90 tons of onions for sale during the traditional annual one day "Zibelemärit" in Berne. The railways had to put on 18 extra trains to handle the 69.000 passengers who visited the mart from outlying areas. Over 225 coaches of which 60 came from other countries also brought their loads of customers. The tradition of the "Zibelemärit" goes back to 1439.

2000 ELECTRIC CARS IN SWITZERLAND

Switzerland is champion of the world when it comes to electric cars. Over 2000 electric cars are circulating on the Swiss roads. In 1984 there were only two of them, in 1990 already 1000 and in 1992 this number has doubled to 2000. Last February an exhibition called Solar Salon took place in Berne. It was by far the world's most important exhibition on light electric cars.

Switzerland is the only country where private people can not only buy new electric cars, but also second-hand ones. A special programme has been put into operation in order to increase the production of electric cars to 4500 by 1996 and to over 200.000 by the year 2010. Electric cars would then represent 8% of the total number of cars on the roads.

MIGROS INTERNATIONAL

Since its creation, Migros saw only Switzerland as its sole objective. But now, after years of fidelity to "Dame Helvetia", Migros is becoming international. In order to retrieve some of the billions of SFR spent by Swiss consumers in the areas just across the Swiss borders (where food is much cheaper than in Switzerland), Migros opened new shops in nearby France and is now planning to move into Austria as well by taking an interest in the chains of "Konsum" and "Zumtobel" which would add 200 new supermarkets to its own existing chain of stores.
