40TH ANNIVERSARY

What a delightful evening this was! It was good to see so many older members and founders of the club. Old stories were told and many had a great time looking at old photos arranged on a board. The Hall and tables were beau-

tifully decorated by Yvonne Bühler with some flower arrangements created by Edith Hess. The sound of the alphorns opened the programme of the evening. Arno spoke some words of welcome and then the children folklore group got

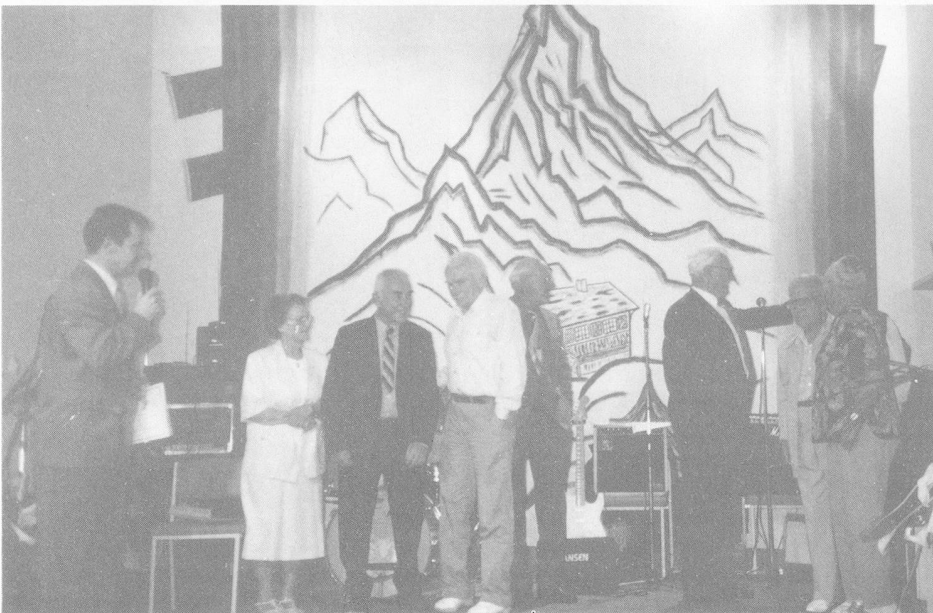

on stage to show us one of their latest items. This was followed by songs of the Swiss Kiwi Jodellers. Then it was time to serve the delicious dinner organised by Remi and prepared by Markus and Oskar our very talented chefs. Markus made even the big "Chnöpflies" himself. It looked like a "Waschbrett", just full of holes. It worked perfectly, the "Chnöpfli" were really yammy. Some more Swiss folklore entertainment followed by the main course, yodelling, dances, alphorn and a yodel duet by Peter Arnold and Raymar Walker accompanied by Ursula Arnold, very beautiful! Many tried their luck in the tombola organised by Hands and Toni. Thanks to the many sponsors who gave so generously. There were some fabulous prizes, a diamond ring, dinner for four, a suitcase, travelbag and many more.

Max Bachmann, the first president of the club had the honour to cut the cake. All the founders and former presidents were then asked to get up on stage. Peter thanked them and spoke some words about the club. At last it was the turn of the dance band to play right through to the end. Thanks to our Master of Ceremony the evening ran smoothly. I think we all agree, Arno Andres did a great job. So thanks to everybody who worked hard or contributed in any way to the event and to all our guests who shared this special celebration with us. Some came from Switzerland and a number of Swiss came from Hamilton. We hope that everybody had a good time and enjoyed themselves.

REMINDER:

Swiss Picnic at the Club-House grounds February 9th 1997. Great family fun day.

On the 23rd of October, we held a Pot-Luck dinner which was organised by Ruedi Dudli, Riflemaster for the Karabiner club.

I would like to thank all the ladies for the lovely food they prepared. It was a credit to them all! I am always amazed about the variety and presentation of our Pot-Luck dinners. Top scores for the ladies, you would all deserve a medal!

After dinner, Ruedi and I handed out

the medals and cards for the past Karabiner Shooting season with Lisette Benkert having the task of pinning them all on the men's chests without hurting anyone! She managed quite well except for one or two minor slip-ups. Thank you Lisette.

We had to hand out quite a number of medals and cards, bearing witness for another very successful shooting season.

Congratulations to all the medal winners!

I would like to thank Ruedi for the well organised and enjoyable evening and I would like to suggest that it becomes an annual event for the month of October.

Furthermore, I would like to congratulate Ruedi for the medal he received from the Swiss Military Department for his 15 years of service as Riflemaster for the Karabiner Shooting! Being the best man for the job, I hope to see him doing it a few more years yet. Thank you Ruedi.

W.S.

Since this is the last Helvetia for this year, I would like to take this opportunity to wish everybody a very merry Christmas and a happy New Year 1997.

Regards: *W. Seifert.*

A big crowd attended the funeral of a long Club Supporter at Manaia. Philys was the Team Leader in the kitchen for 20 years together with her three sisters: Josy, Lora and Klara. She was born in Hunterville into the big Burkhart family. In 1933 she married Ted Meier of Inaha Road where they brought up a big family.

NEW SWISS BEARD KING

After four unsuccessful attempts, Silvio Thöni, 57, "Alphirt" on the Staviola Viedra Alp (GR) at long last became king at this year's "Internationalen Alpenbarttreffen" in Chur.

Silvio Thöni has lived on alps for the past 30 years. He has never travelled outside Switzerland. He only once went to Basle but did not like the noise, the traffic and the crowds. So he packed up his gear the very next day after his arrival and went back to his beloved mountains.

His biggest fans are the nuns from the St. Alberthaus nunnery in Ilanz, and this for a very good reason: he works for them during the winter months.

Silvio is a happy man and he loves to live alone with his animals high up in the Alps, surrounded by peace and beautiful scenery.

SELF-HELP SERVICE

A crafty farmer in Oberwil-Lieli (Aargau) came up with the novel idea of selling the milk from his farm around the clock from this specially designed self-help store built by the main road. By putting SFR 1.20 into the automatic vending machine, you receive one litre of fresh milk. However, you have to be careful to bring along your own container as these are not being provided.

In order to satisfy stringent health regulations, the milk is kept at a strict temperature of 4 degrees centigrades at all times and it is replenished at least twice a day.

The Milk-Chalet in Oberwil-Lieli where fresh milk is available 24 hours a day seven days a week.

NOTE TO SECRETARIES

Next issue of the Helvetia magazine: FEBRUARY 1997. All contributions must be in by 15 January. Many thanks for your kind cooperation.

MAD COW DISEASE

In order to restore confidence into the badly hit beef market, the Swiss Federal Council has decided that no cow born before December 1990 is allowed to enter the meat market. This decree affects 230,000 cows which must be destroyed before 1999. The loss in revenue for the 50,000 affected farmers amounts to some 320 million SFR.

By these measures, the Federal Council hopes to counteract all the negative feelings against beef generated by the mad cow disease. Farmers will receive a compensation of SFR 1000.- for each affected cow. A further SFR 400.- per cow will be paid by the Swiss Government for the transport, killing and disposal of the animals.

In the meantime a meat scandal has erupted in Switzerland. Some meat producers have tried to get rid of some beef by mixing it in with porc mince. There is at present a huge outcry amongst unsuspecting customers who realised afterwards that they might well have eaten some meat that could have come from some diseased animals.

PIANO PLAYING, A BIG HOBBY IN SWITZERLAND

In 17% of Swiss households there stands a piano, and in every fifth household, there is someone who can actually play the instrument (this means that in around 3% of the households there is someone who can play the piano but hasn't got one!!). These statistics indicate further that there are about half a million pianos in Switzerland of which 83% are in actual use.

Another surprising discovery was how intensive the Swiss are at playing the piano. One third of all piano players play every day for an average of one hour. Most of them do it mainly for relaxation. Most popular amongst the Swiss piano players is classical music with jazz, pop and country music only amounting to about 20%.
