

Zeitschrift: Helvetica Physica Acta

Band: 72 (1999)

Inhaltsverzeichnis

Nutzungsbedingungen

Die ETH-Bibliothek ist die Anbieterin der digitalisierten Zeitschriften. Sie besitzt keine Urheberrechte an den Zeitschriften und ist nicht verantwortlich für deren Inhalte. Die Rechte liegen in der Regel bei den Herausgebern beziehungsweise den externen Rechteinhabern. [Siehe Rechtliche Hinweise.](#)

Conditions d'utilisation

L'ETH Library est le fournisseur des revues numérisées. Elle ne détient aucun droit d'auteur sur les revues et n'est pas responsable de leur contenu. En règle générale, les droits sont détenus par les éditeurs ou les détenteurs de droits externes. [Voir Informations légales.](#)

Terms of use

The ETH Library is the provider of the digitised journals. It does not own any copyrights to the journals and is not responsible for their content. The rights usually lie with the publishers or the external rights holders. [See Legal notice.](#)

VOLUMEN 72, 1999

CONTENTS INHALTSVERZEICHNIS – TABLE DES MATIÈRES

Fascicle 1

Simos, T. E.: A new Numerov-Type Exponentially Fitted Method for the Numerical Integration of the Schrödinger Equation	1
Baesens, C., MacKay, R. S.: Algebraic Localisation of Linear Response in Networks with Algebraically Decaying Interaction, and Application to Discrete Breathers in Dipole-Dipole Systems	23
Rudolph, O.: Consistent Histories and POV Measures	33
Quesne, C., Vansteenkiste, N.: Algebraic Realization of Supersymmetric Quantum Mechanics for Cyclic Shape Invariant Potentials	71

Fascicle 2

Chahrour, A.: Densité Intégrée D'états Surfacciques et Fonction Généralisée de Déplacement Spectral pour un Opérateur de Schrödinger Surfaccique Ergodique	93
Chicone, C., Mashhoon, B., Retzloff, D. G.: Chaos in the Hill System	123
de Oliveira, M. W., Zerrouki, H.: A Remark on the Anti-BRS Structure of the Topological Yang-Mills Field Theory	158

Fascicle 3

Băleanu, D., Dubovik, V. M., Mişicu, Ş.: Dual Killing-Yano symmetry and multipole moments in electromagnetism and mechanics of continua	171
Reyes, J. A., del Castillo-Mussot, M., Molero, M. A., Vázquez, G. J.: Solution of Wannier Exciton for Electron and Hole Spatially Separated in Perpendicular 1D Quantum Wires in Terms of 2D Exciton states	180
Pavičić, M., Megill, N. D.: Non-Orthomodular Models for Both Standard Quantum Logic and Standard Classical Logic: Repercussions for Quantum Computers	189
Scipioni, R.: Hidden symmetries in non-Riemannian gravity	211

Fascicle 4

Ton-That, T.: Reciprocity theorems for holomorphic representations of some infinite-dimensional groups	221
Niestegge, G.: Representation Theory for Q-Algebras	250
Bubovich, V. A., Grib, A. A.: Quantum computations on macroscopical automata . . .	262
Łaba, I., Soffer, A.: Global existence and scattering for the nonlinear Schrödinger equation on Schwarzschild manifolds	274

Fascicle 5/6

Reyes, J. A., del Castillo-Mussot, M., Vázquez, G. J.: Impurity at the boundary of two quantum wires: 1D Schrödinger equations with an asymmetric Coulomb potential . .	295
Hachem, G.: The Faddeev formula in the inverse scattering for Dirac operators	301
Hagedorn, G. A., Robinson, S. L.: Approximate Rydberg States of the Hydrogen Atom that are Concentrated near Kepler Orbits.	316
Charles, L.: Feynman Path Integral and Toeplitz Quantization.	341
Durt, T.: About the possibility of supraluminal transmission of information in the Bohm-Bub theory	356
Debergh, N.: From superposititons of oscillators to nonlinear deformations of $osp(1/2;R)$	377
Alarcón, H., Benguria, R., Duclos, P., Høegre, H.: On the stability of positive molecular ions	386
Chung, W.: The $slq(2)$ -Covariant Oscillator Algebra with q a Root of Unity	408
Gerisch, T., Münzner, R., Rieckers, A.: Spectral Phase Diagrams in Different Ensembles for Bipolaronic Superconductors	419
Wieczerkowski, C.: Rigorous control of the non-pertubative corrections to the double expansion in g and $g^2 \ln(g)$ for the \emptyset_3 -trajectory in the hierarchical approximation . .	445
