## INDEX ALPHABETIQUE

Les noms des espèces (y compris celles mentionnées dans les addenda) et des variétés sont en romain, ceux des genres et sous-genres en **caractères gras**, ceux des groupes systématiques en CAPITALES.

Tous les synonymes sont en *italiques*, ainsi que les noms désignant les formes larvaires, les « species inquirendae » et les espèces à supprimer.

Les chiffres en caractères ordinaires renvoient aux citations dans le texte, ceux en *caractères italiques* aux diagnoses, ceux en **caractères gras** aux figures.

Les lettres grasses (**A-N**) se rapportent aux figures placées dans les « Notes additionnelles ».
