Labels

Labels are used to identify and describe the contents of a container or document.

They provide essential information such as the name of the item, its quantity, and its location.

Labels are commonly used in libraries, museums, and laboratories.

They help in the organization and management of collections.

Labels are also used in retail stores to identify products.

They are an important part of many systems of classification.

Labels are used to provide information about the history and provenance of items.

They are also used to provide information about the care and maintenance of items.
