Autor(en): **Pollini, L.**

Objekttyp: **Appendix**

Zeitschrift: **Memorie / Società ticinese di scienze naturali, Museo cantonale di storia naturale**

Band (Jahr): **11 (2012)**

PDF erstellt am: **17.07.2024**

## **Nutzungsbedingungen**

Die ETH-Bibliothek ist Anbieterin der digitalisierten Zeitschriften. Sie besitzt keine Urheberrechte an den Inhalten der Zeitschriften. Die Rechte liegen in der Regel bei den Herausgebern.

Die auf der Plattform e-periodica veröffentlichten Dokumente stehen für nicht-kommerzielle Zwecke in Lehre und Forschung sowie für die private Nutzung frei zur Verfügung. Einzelne Dateien oder Ausdrucke aus diesem Angebot können zusammen mit diesen Nutzungsbedingungen und den korrekten Herkunftsbezeichnungen weitergegeben werden.

Das Veröffentlichen von Bildern in Print- und Online-Publikationen ist nur mit vorheriger Genehmigung der Rechteinhaber erlaubt. Die systematische Speicherung von Teilen des elektronischen Angebots auf anderen Servern bedarf ebenfalls des schriftlichen Einverständnisses der Rechteinhaber.

## **Haftungsausschluss**

Alle Angaben erfolgen ohne Gewähr für Vollständigkeit oder Richtigkeit. Es wird keine Haftung übernommen für Schäden durch die Verwendung von Informationen aus diesem Online-Angebot oder durch das Fehlen von Informationen. Dies gilt auch für Inhalte Dritter, die über dieses Angebot zugänglich sind.

## **APPENDICI**

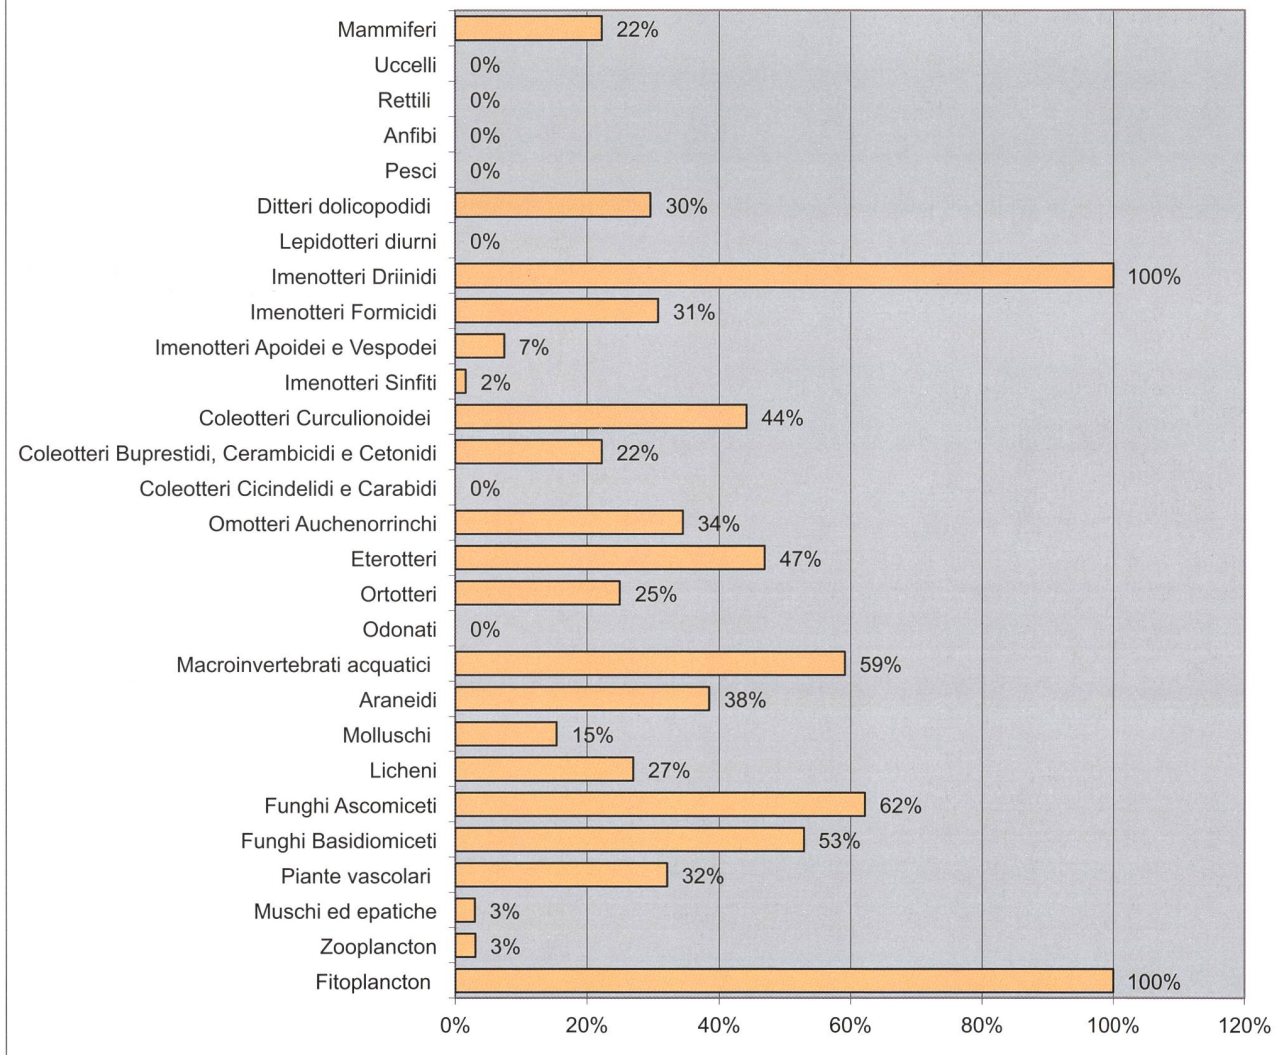

## Appendice 1: Sintesi dei risultati

Sintesi tabellare dei risultati (numero di specie) in base ai gruppi tassonomici considerati nei singoli contributi della presente Memoria. **Nota:** I batteri sono stati omessi, in quanto non possono essere equiparati agli altri gruppi tassonomici nel conteggio delle specie.

Taxa indagati durante le "Giornate della biodiversità" (2010)	Numero di specie conosciute in base ai dati pregressi (<2010)	Numero di specie rilevate durante le "Giornate della biodiversità" (2010)	Numero complessivo di specie conosciute (>2010)	Numero di nuove specie per la Val Piora	Numero di nuove specie per la Val Piora (%)	Numero di nuove specie per il Cantone Ticino	Numero di nuove specie per la Svizzera

### Percentuale di nuove specie per la Val Piora rilevate durante le "Giornate della biodiversità"

## Appendice 2: Gruppi tassonomici non considerati e completamenti

a cura di L. Pollini, Museo cantonale di storia naturale, Viale C. Cattaneo 4, CH-6900 Lugano

Elenco delle specie di invertebrati appartenenti a gruppi tassonomici non considerati nei contributi di questa Memoria, ma la cui presenza in Val Piora è comunque segnalata nelle banche dati del Centro svizzero di cartografia della fauna e del Museo cantonale di storia naturale oppure in bibliografia e rapporti inediti. **Nota:** a causa di dati inediti pregressi apparsi a redazione ultimata, la presente appendice riporta integralmente anche i gruppi tassonomici indagati nel quadro della "48 ore della biodiversità", per i quali si è a conoscenza di specie che non sono state elencate nei singoli contributi (specie identificate nell'elenco con "!").
