The following deaths have been reported from Switzerland:

E. Bebler-Kling, formerly General Manager of the "Schweizerischen Rückversicherungsgesellschaft" Zurich, in Zurich, aged 71. Born in 1883, he received his early training at Basle, and later gained wider experience in Paris and London, entering the service of the "Schweiz. Rückversicherungsgesellschaft" in 1913. He joined the board of management in 1919, and was appointed general manager in 1932. The deceased was deeply interested in literature, and his studies of Conrad Ferdinand Meyer, Gottfried Kinkel, Gottfried Keller and Ludmilla Assing are widely esteemed.

Paul Huguenin-Davoine, technical manager of the firm Huguenin frères, Le Locle, in Le Locle, aged 72.

Adolf Tschudi, President of the Swiss Chamber of Commerce in Italy (Head Office Milan) in Flims, where he was on holiday at the age of 63.

Professor René Bray, Professor of French literature at the University of Lausanne, in Lausanne, aged 58.

Francois-Louis Schulé, from 1891-1934, Editor-in-Chief of the "Feuilles d'Avis de Neuchâtel" in Neuchâtel, at the age of 89.

Hans Kasper, well-known mountain guide, and President of the Association of Swiss Guides, at Pontresina, aged 70.

Switzerland beat Japan in an international gymnastics match at Lucerne by 288.1 points to 287.4.

Insurance policies against rainy holidays have been introduced for the first time in Switzerland. The insurance company undertakes to reimburse travel and hotel expenses in case of bad weather.

The Saint Bernards are safe. There is absolutely no foundation for the spate of rumours that the giant dogs which take their name from the hospice of St. Bernard in the Swiss Alps will no longer be bred there.

Promoted doubtless by the widespread affection evoked by the sad-eyed mastiffs which have gained undying fame by rescuing people lost in the snowdrifts of the Alpine passes, the rumours included one report that the Vatican had directed the breed to be suppressed after nearly a thousand years.

The rumours, which have cropped up repeatedly over a period of years in various forms, have once again been exposed as entirely baseless in a reply given by the Canons of the Great St. Bernard Monastery.

The truth about the Saint Bernards as set down by the monks of the monastery on top of the pass between Switzerland and Italy was summarized as follows:

The dogs, formerly used for rescue work in the mountains, have not participated in such operations for a long time — because there has been no one to save.

The monks at present have six grown dogs and 12 puppies.

Formerly, the monastery was the sole centre for training dogs for rescue work. However, when the Swiss Army began to use dogs during the period of avalanches, it, too, began to train dogs.

The monks keep the dogs also for breeding purposes, exporting puppies to France, Germany, Italy, Africa and the United States.

Other kinds of dogs besides Saint Bernards have been used for rescue work in winter — German Shepherds, for example—and all dogs are known generally as Avalanche Dogs.

Formerly Saint Bernards functioned as Avalanche Dogs. At present they are no longer trained for such operations, since the region around the monastery is not frequented in winter.

Neither the monks of the monastery nor anyone else intends to suppress the breed of Saint Bernards.

New air fares to Switzerland to be introduced jointly by B.E.A. and Swissair during the coming winter sports season will be 15 per cent. cheaper than the present low-priced night fares.

From mid-December to the end of March, a 23-day excursion fare between London and Geneva will cost £18 4s. return against the present night fare of £21, and a similar fare between London and Zurich will cost £19 7s. saving three guineas.

The fares will be good for travel on night flights operated at week-ends by both airlines.

Switzerland may start construction of its first private-controlled atomic power scheme next year, it was revealed in Berne. A spokesman of a Swiss firm said a consortium of Switzerland's biggest producers of electrical equipment have received approval in principle from the Government to proceed with their plans to build a £1,700,000 nuclear reactor for studies on peaceful uses of atomic energy.

The Swiss Comptoir Lausanne. This national Autumn Trade and Agricultural Fair will be held

this year from September 11th to 26th. The permanent buildings of the "Comptoir" have been extensively enlarged in the last two years. Furthermore, finishing touches are being given to a new permanent Theatre accommodating 2,000 spectators and endowed with a very large stage (25.5 metres wide, 13 metres in depth) allowing for the production of musicals, operas, comedies, festival plays and the like, on a grand scale.

10th Musical Competition, Geneva. Over 1,300 inquiries and 50 applications have arrived from 17 different countries at the Secretariat of the 10th International Musical Competition, to be held from September 20th to October 3rd, 1954, in Geneva. The governments of Austria, Italy, Poland and Yugoslavia have announced that they are entering officially several young candidates.

New aerial cabins and chairlifts. The Federal Post and Railway Department has licensed the S.A. Eggli-Funi Company at Gstaad to replace their sleigh tow, known as the Gstaad-Eggli Funi, by a chairlift; the old installation is now out-of-date and can no longer meet the heavy demands made upon it.

On Saturday, June 26th, the Unterbäch-Brandalp Chairlift was inaugurated. This new installation is replacing the former skilift and transports passengers from 3,690 ft. above sea level to 5,100 ft. Unterbäch is also connected with Rarogne in the Valais, on the Swiss Federal Railway line, by a cabin line. It must be stressed that Unterbäch, which until recently was quite a small village in the Valais, is now being developed into a resort; the view from the terminal station of

the new chairlift extends over the range of the Bernese Alps.

In June also were inaugurated two new chairlifts at Villars-Chesières (Villars-sur-Ollon). The line which formerly connected the Black Lake (Lac Noir) has been extended to the Chavannes Lake, from the Col de Bretaye (4,750 ft. above sea level). The upper terminal station is situated at 6,448 ft. and the lower one at 5,118 ft. The second new chairlift connects the small Lake of Bretaye (5,355 ft.) to the top of the Petit Chamossaire (6,090 ft.), where a magnificent view is obtained. Above the Petit Chamossaire rises the Chamossaire itself (6,348 ft.) which is connected to the Col de Bretaye by a skilift starting from the terminal station of the Villars-Bretaye rack-railway.

The Geneva School of Interpreters. This internationally famous School was founded in 1941 and today has a student roll of 550. The staff is composed of 45 professors teaching 24 languages. The school is equipped with a special hall allowing for training in ten different languages simultaneously. Students at this school are trained in view of appointments in international organizations and for work at the many polyglot and international congresses and sessions held in Geneva, the European Centre of the UNO.

OMEGA

THE RECORD-BREAKER

If you win six first prizes in eight successive contests, you have a right to be proud!

That is exactly what the world-famous Omega 30 mm has done and all the world loves a winner!

Already over a million men have chosen

the Omega 30 mm, recognising that

this timepiece fulfils all

requirements for highest wrist

watch accuracy. Now with

production well into the

second million, the Omega 30 mm

has won its sixth victory out of eight

consecutive annual precision contests in the

wrist watch category at the Geneva Observatory.

Significantly, this is not only the most

difficult category there is, but also the most

important for time-conscious men all over the world.

OLYMPIC GAMES — For 20 years Omega has timed the Olympic Games. Again the most exacting and impartial experts have chosen Omega to time the 1956 Olympics in Melbourne, Australia. This is the highest recognition any watch has ever received from the countries of the world.
