DEATHS.

The following deaths are reported from Switzerland:

Dr. Raymond Gautier, a former Assistant Director-General of the World Health Organization and Research Director for the International Children's Centre in Paris, in Geneva at the age of 71.

He was born in Geneva and in 1921 was appointed first assistant in the laboratory of Physiology at the University of Geneva. Two years later he took over the post of chief of operations at the Institute of Hygiene and Bacteriology.

Dr. Gautier joined the Health Organization of the League of Nations as head of its biological standardization section in 1925, and from 1926 to 1930 he was director of its eastern office at Singapore. Returning to Geneva, he devoted the next eight years to biological standardization, and was then appointed Acting Director of the Health Section of the League of Nations. He held that post till 1942 and afterwards undertook missions to Washington and London. He was the author of many works dealing with the epidemiology of scarlet fever and cholera, etc. He

Pictures like this that can't be posed—the living, breathing, moving happenings that make the best pictures of all can only be taken with a cine camera. And the beauty of it is that cine films are far from expensive. With this Bolex B8 you can take 24 or more good length action sequences for just over £1, including processing charge. At under 11d. a shot this compares very favourably with ordinary still photography. See the Bolex B8 at any good photo shop. Note its precision construction—so vital in a cine camera. That's because it is made in one of the great watch-making centres of Switzerland.
