SWISSAIR NEWS

Swissair's accounts for 1966 show a rise in net profit to Fr.22,652,000.— (£1,870,000) from Fr.18,614,000.— (£1,533,000) in 1965. Total revenue advanced to approximately 700 million francs (£57.8 million) from 633.3 m. francs (£52.2m.) in the previous year.

In view of the current aircraft procurement programme Swissair's increase in the company's share capital is to be made from 175m. to 218.75 m. francs.

The increase will be effected by a rights issue of 125,000 new bearer shares of 350 francs (nominal) each, in the proportion of one new share for every four old registered shares held. Hitherto Swissair's capital has consisted only of registered shares. A banking consortium has underwritten the issue and will offer the new shares to registered holders from 5th to 18th May at Fr.400.— per share.

Since 1st April, British United Airways handle all Swissair services operated from and to Gatwick Airport London. Swissair passengers will therefore be able to check in at the BUA Terminal at Victoria Station and use the terminal's facilities in general.

The new arrangements also include non-scheduled Swissair services using the airport and the airline's cargo handling at Gatwick.

Swissair is operating night flights to Basle, Geneva and Zurich from Gatwick, with a peak frequency of 17 flights weekly in each direction.

British European Airways continue to handle all Swissair flights at Heathrow as hitherto.

The Spanish charter carrier Spantax S.A. has concluded an agreement with Swissair under which the latter carries out all maintenance and overhaul work on Spantax' Convair 990 Coronado EC-BJC.

The main overhauls are carried out at Swissair's engineering base at Zurich Airport. Swissair engineers will also perform the line checks at destinations served, mainly in Europe, including London and Manchester from April.

Spantax is the fifth airline at present using Swissair's technical services. The Zurich engineering base also overhauls the Coronados of the Lebanese carrier LIA, the Caravelles of Austrian Airlines, the DC-7C engines of SAS and the DC-9 engines of KLM.
