# Acrow put the most into their racking systems...

...and you  
get the most  
out of them!

Acrow, the people who really know your storage problem from every angle, offer an unsurpassed choice of fully engineered racking systems, scientifically designed to do the job better. Illustrated here is Acrow Series 240 cantilever rack storage system. It is immensely strong, free-standing with tapered arms for extra load bearing power. And completely adjustable to any column height, single or double-sided to provide ideal storage for sheets, bars, rounds, angles, channels, strips and timber. Upright columns are available in heights up to 48 ft, arms up to 96 inches. These can be adjusted up the entire height of the column on 3 inch centres. The positive wedge type connectors make adjustment to new loads or additional clearance easy to accomplish. Series 240 is worth getting to know. The Acrow design and advisory service is as near as your telephone.
