SBB SIGNAL REGULATIONS 1982.

(Shunting signals).

SBB Doc GS VII83 translated by the Editor.

Fixed signals for shunting operations. Ground signals.

HORIZONTAL Command. Halt.

- at the signal.
- at the points; of traversing junctions, single points, provided that the signal stands in the area of the points.
- of slip points, provided that the signal stands in the middle of the points.

DIAGONAL Command. Caution.

- the movement is about to begin or continue, the following ground signal will show the STOP command, or no further signal will follow. Be prepared for an obstruction immediately after the ground signal.

VERTICLE Command. Go.

- the movement is about to begin or continue, but the following ground signal will indicate either the verticle or diagonal command.

Other fixed shunting signals.

An arrow is fitted on the signal to indicate the controlled track.

5. Shunting stop signal: All shunting movements must stop at this signal.

6. Barrier signal. Stop command for trains either shunting or transport.

7. Signal command. The shunting movement beyond this signal will begin or continue immediately. Advance.

8. Shunting is forbidden. The track protected by this signal must be cleared immediately and kept free.

9. Shunting or transport is permitted.
